

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

CANADIAN STATISTICS.

CENSUS OF 1890-91.

INTRODUCTION.

VOLUME THIRD.

The Third Volume is devoted to the Industrial Establishments of the country.

The Census definition of an industrial establishment is, "Any place where one or several persons are engaged in manufacturing, altering, making up or changing from one shape into another, materials for sale, use or consumption."

This definition is the one which guided the enumerators in the census of 1891, and also in the censuses of 1881 and 1871.

The object aimed at in each of the three census-takings is the same, viz., to obtain full statistics of the small as well as the large industries of the country. The chief characteristic of the country's development during the decade 1881-90 appears, from the returns of the census enumerators, to be the up-springing of numerous small industries. This was a characteristic of the country's growth in 1881, but was not so marked as was shown in 1891.

The Statistical Division of the Department of Agriculture has exercised great care in compiling the returns of the enumerators. Many small industries were returned but were cut out of the tabulated statement herewith presented, because they were evidently adjuncts to the regular occupation, rather than the occupations by which livelihoods were obtained. In this respect the lines of previous censuses were closely followed, the object being to make the census of 1891 strictly comparable, in its general results, with those of 1881 and 1871.

The returns herewith given do not include such products as are made at home for family use, as woollen and linen cloth. Butter and cheese made at home are not included in the products of the creameries and cheese factories given in the present volume.

The magnitude of these industries will appear from the fact that 4,320,838 yards of cloth and flannel, 633,724 yards of linen, 111,370,210 pounds of butter and 6,267,203 pounds of cheese were reported by the census enumerators as having been made in the homes of Canada but these are not included in the returns of industrial establishments.

Furniture, boots and shoes, etc., made in the houses of Canada during "off-hours" are not included.

On the other hand dress-making and millinery, carried on by persons who make their living by so doing, have necessarily to be given their legitimate place in a census which aims to present as fully as possible the results produced by the wage-earners of the land in making their living.

One great feature in the returns of industrial establishments for 1891 is the special place which had taken place.

STATISTIQUE DU CANADA.

RECENSEMENT DE 1890-91.

INTRODUCTION.

TROISIÈME VOLUME.

Le troisième volume est consacré aux établissements industriels du pays.

La définition d'un établissement industriel, dans le manuel du recensement, est :—
"Un local quelconque dans lequel une ou plusieurs personnes sont employées à transformer une matière quelconque en article d'usage ou de consommation."

Cette définition est celle qui a été suivie par les énumérateurs dans le recensement de 1891, comme dans ceux de 1881 et 1871. Le but en vue dans ces trois recensements est le même : obtenir des statistiques complètes sur les petites comme sur les grandes industries du pays. Une des causes principales du développement du pays, durant la dernière décade, d'après les rapports des énumérateurs du recensement, semble être due à la création d'un grand nombre de petites industries. Cette cause caractéristique peut aussi s'appliquer à la décade précédente, mais dans des limites moins étendues.

Les plus grands soins ont été apportés par le personnel du bureau de la statistique, dans la compilation des rapports des énumérateurs. Ces rapports contenaient plusieurs petites industries dont il n'est tenu aucun compte dans le présent volume, vu que ces industries ne formaient que de faibles accessoires aux occupations régulières desquelles l'ouvrier tire son existence. En cela on a suivi fidèlement les voies adoptées par les recensements précédents, le but étant de mettre le recensement de 1891 en état d'être comparé, dans ses résultats généraux, avec ceux de 1871 et 1881.

Le présent rapport ne contient pas les produits fabriqués dans les familles pour des fins domestiques, tels que les lainages et les toiles, ainsi que le beurre et le fromage faits dans les familles.

On verra l'étendue de ces industries par les chiffres suivants : 4,320,838 verges de lainages, 633,724 verges de toile, 111,370,210 livres de beurre et 6,267,203 livres de fromage ont été fabriquées durant l'année du dernier recensement dans les familles canadiennes ; ces produits domestiques ne sont pas donnés dans le présent rapport. Il en est de même pour les autres produits domestiques, tels que meubles, chaussures, etc., faits dans les familles, durant les heures de loisir, pour des fins domestiques.

D'un autre côté, l'industrie de modiste suivie, comme moyen d'existence, par un grand nombre de personnes, devait nécessairement trouver sa place dans un recensement dont le but était de montrer, aussi complètement que possible, les résultats obtenus par les ouvriers du pays.

Un trait digne de remarque dans les rapports des établissements industriels, pour l'année 1891, c'est la manière dont les industries ont été spécialisées. Bon nombre d'industries qui, en 1881, étaient données comme appartenant au même établissement, ont été sépa-

Many industries, which, in 1881, were under one establishment, had become separated in the ten years. One example will suffice to show the extent of this movement. In 1881 there were 1,180 bakeries returned for the Dominion. In 1891 there were 1,656 bakeries and 280 confectionery-making establishments. Included in the 1,180 bakeries were all the confectionery-making establishments, and these were so included because, taken generally, the two industries were carried on under the same management. In 1891, specialization had made such progress that the enumerators returned 280 establishments in which confectionery-making was the sole business.

In many cases, therefore, there were two establishments in 1891, where there was but one in 1881, the two doing, possibly, no larger business than the one did in 1881.

The movement towards specialization explains, in part, the great increase in the number of industrial establishments during the ten years.

There is no doubt that the ten years saw a large increase in small industries. These have been established all over the country. They have taken root, and time will show whether they will follow the rule of other countries and develop into large establishments.

As a feature in the industrial life of the people this revelation of the census deserves to be recorded. It is a great fact and should not be ignored. It is registered in the census returns so that in after years, when there shall come development of large establishments, the people of Canada may be able to look back upon the period of "small and feeble things," and show from what humble beginnings the industrial life of the country sprang.

Many and very great difficulties surround the effort to take the industrial establishments of Canada under the definition which has been in force for three census-takings. It did not, however, seem possible to depart from the principle established in former censuses. In order to reduce to a minimum the objections to such a minute investigation as the definition called for, the Statistical Division is engaged in making a classification of the industrial establishments as recorded in the censuses of 1881 and 1891 on the basis of value of output. The classes into which the returns are divided are:—

Industries having an output under.....	\$ 2,000
“ “ from.....	2,000 to \$12,000
“ “ “	12,000 “ 25,000
“ “ “	25,000 “ 50,000
“ “ over.....	50,000

This classification it was hoped would be finished in time for publication in the present volume, but unavoidable delays have prevented and it has been deemed better to publish Vol. III. without the analysis on the basis mentioned rather than wait longer.

rées durant la dernière décade. Un exemple suffira pour montrer l'étendue de ce mouvement. En 1881, 1,180 boulangeries ont été rapportées par les énumérateurs du recensement pour le Dominion. En 1891, il a été fait rapport de 1,656 boulangeries et de 280 confiseries. Les établissements de confiserie, en 1881, se trouvaient compris dans les 1,180 boulangeries, vu que la plupart de ces établissements étaient alors conduits par une même administration. En 1891, la séparation d'industrie avait fait tant de progrès que les énumérateurs ont rapporté 280 établissements dans lesquels la confiserie était l'unique industrie. Dans bien des cas, par conséquent, deux établissements ont été rapportés séparément en 1891 là où il n'a été fait rapport que d'un seul en 1881. Le mouvement tendant à spécialiser ou séparer les industries, explique en grande partie l'augmentation considérable dans le nombre des établissements industriels durant la dernière décade. Il n'y a aucun doute que ces petites industries ont augmenté considérablement durant les dix années en question. Il en a surgi dans tout le pays. Elles ont pris racine, et l'avenir dira si elles ont suivi ici la règle suivie par elles dans d'autres pays, en se développant en établissements plus considérables.

Comme trait de la vie industrielle du peuple canadien, cette révélation du recensement mérite d'être mentionnée. C'est un fait important qui ne devrait pas être ignoré. Il est enregistré dans les archives du recensement, afin que plus tard, quand le développement en de grandes industries se sera accompli, le peuple canadien puisse jeter un regard en arrière sur la période des "petites et faibles choses," et montrer de quels humbles commencements la vie industrielle du pays est sortie.

De grandes difficultés ont accompagné les efforts qui ont été faits pour obtenir un état des établissements industriels du Canada, tel que voulu par la définition des trois derniers recensements. Il n'a pas été possible, cependant, de s'éloigner du principe établi par les recensements précédents. Afin de réduire à leur plus simple expression les objections que renferme cette définition, le personnel du bureau de la statistique est actuellement à faire une classification des établissements industriels, tels que rapportés dans les recensements de 1881 et 1891, classification basée sur la valeur des produits manufacturés, dans l'ordre suivant :—

Industries ayant produit	au-dessous de.....\$	2,000
"	"	de..... 2,000 à \$12,000
"	"	" 12,000 à 25,000
"	"	" 25,000 à 50,000
"	"	au-dessus de 50,000

On espérait que cette classification serait terminée à temps pour être publiée dans le présent rapport, mais des retards inévitables ayant arrêté le progrès de ce travail, on a cru qu'il serait préférable de publier le volume III sans cette analyse, plutôt que d'attendre plus longtemps.

CANADIAN STATISTICS.

CENSUS OF 1890-91.

INTRODUCTION.

VOLUME FOURTH.

The contents of this fourth and last volume of the Census need little explanation. Tables I. to V. refer to "Immovable Property," "Field Products," "Animals and Animal Products," "Various Farm Products" and "Products of the Forest," and are sufficiently explained by their several headings.

Table VI. gives the number of Industrial Establishments compared by groups based on the value of manufactured products, for the years 1881 and 1891. As it was impossible, in the Province of Ontario, to compare some of the districts of the last census with those of the previous census, owing to the changes of boundary occasioned by the Readjustment Act of 1882, the province was subdivided into territorial groups of districts for that purpose.

In table VII. will be found the total number of Industrial Establishments given alphabetically by districts and provinces.

Table VIII. gives a comparative statement of Industries in cities, towns and villages for the years 1881 and 1891.

In tables A to P will be found summary statements relating to population, with ratios and comparisons. Thus, in table A, Canada is shown as having 439.1 acres of land to a person, while the unoccupied area of land is 426.0 acres to a person. The proportion to the total acreage, by provinces, is as follows: Ontario, 6.5; Quebec, 6.7; Nova Scotia, 0.6; New Brunswick, 0.8; Manitoba, 1.9; Prince Edward Island, 0.1; British Columbia, 11.5, and the Territories, 71.4. The following figures represent the kinds of houses the people dwell in: Wood, 81.5 per cent; brick, 15.5, and stone, 3.0. The percentage of population by provinces, is: Ontario, 43.9; Quebec, 30.7; Nova Scotia, 9.3; New Brunswick, 6.7; Manitoba, 3.1; Prince Edward Island, 2.3; British Columbia, 2.0, and The Territories, 2.0.

Table B refers to houses and families, also to the civil condition of the people, and shows that there are, for the Dominion, 5.6 persons to a house, 5.2 persons to a family and 1 family to a house. The percentage of houses having one story, in Canada, is: 63.5; two stories, 33.6; three stories, 2.5, and four stories, 0.4. The proportion of houses having one room is: 2.09; two rooms, 8.0; three rooms, 11.0; four rooms, 15.8; five rooms, 12.2; six to ten rooms, 43.3; eleven to fifteen rooms, 5.6, and sixteen rooms and over, 1.2.

Out of every 1,000 of the population there are 509.1 males and 490.9 females; 528.6 are married, 39.7 widowed and 631.7 children and unmarried. In this table the proportion of French Canadians is also given as 290.7 per thousand of the population.

STATISTIQUE DU CANADA.

RECENSEMENT DE 1890-91.

INTRODUCTION.

QUATRIÈME VOLUME.

Le contenu de ce quatrième et dernier volume du recensement ne demande que peu d'explication. Les tableaux I à V ont rapport aux matières suivantes :—" Propriété Foncière," " Produits des Champs," " Animaux de la ferme et leurs produits," " Divers produits de la ferme," " Produits de la forêt," tous suffisamment expliqués par leurs en-têtes respectifs.

Le tableau VI donne le nombre d' "Etablissements Industriels," comparés par groupes basés sur la valeur des produits manufacturés, pour les années 1881 et 1891. Vu l'impossibilité, dans la province d'Ontario, d'établir des comparaisons entre les districts des deux derniers recensements, à cause des changements apportés par la loi de Rajustement de 1882, la province a été subdivisée, dans ce but, en groupes de districts territoriaux.

On trouvera dans le tableau VII le nombre total des "Etablissements Industriels," donnés alphabétiquement par districts et par provinces.

Dans le tableau VIII se trouve un état comparatif des différentes industries telles qu'elles existaient en 1881 et 1891.

Dans les tableaux A à P se trouvent des états sommaires ayant rapport à la population. Ainsi, dans le tableau A, le Canada est représenté comme ayant 439·1 acres de terre par tête de la population, tandis que l'étendue de terre inoccupée s'élève à 426·0 acres par tête. La proportion par provinces, quant au total de la superficie, est indiquée par les chiffres suivants :—Ontario, 6·5 ; Québec, 6·7 ; Nouvelle-Ecosse, 0·6 ; Nouveau-Brunswick, 0·8 ; Manitoba, 1·9 ; Ile du Prince-Edouard, 0·1 ; Colombie-Britannique, 11·5, et les Territoires, 71·4. Les chiffres suivants représentent les différentes constructions dans lesquelles habite la population du Canada :—Maisons en bois, 81·5 ; maisons en brique, 15·4 ; maisons en pierre, 3·1. La proportion par provinces quant au total de la population, est :—Ontario, 43·9 ; Québec, 30·7 ; Nouvelle-Ecosse, 9·3 ; Nouveau-Brunswick, 6·7 ; Manitoba, 3·1 ; Ile du Prince-Edouard, 2·3 ; Colombie-Britannique, 2·0, et les Territoires, 2·0.

Le tableau B a rapport aux maisons et aux familles, ainsi qu'à l'état civil de la population, et montre qu'il y a en Canada, 5·6 personnes par maison, 5·2 personnes par famille et 1 famille par maison. Sur le nombre total des maisons, 65·5 pour 100 ont un étage ; 33·6, deux étages ; 2·5, trois étages et 0·4, quatre étages. Proportion des maisons ayant une chambre, 2·9 ; deux chambres, 8·0 ; trois chambres, 11·0 ; quatre chambres, 15·8 ; cinq chambres, 12·2 ; de six à dix chambres, 43·3 ; de onze à quinze chambres, 5·6 ; seize chambres et au-dessus, 1·2.

D—B

In table C the various religious denominations of Canada are represented by the following proportions per thousand of the population: Roman Catholics, 412·2; Church of England, 133·7; Presbyterians, 156·2; Methodists, 175·6; Baptists, 62·9; Lutherans, 13·2; Other Denominations, 27·7, and Not Specified, 18·5.

The places of birth of the people are given in table D, the proportion per 1,000 being: Born in Canada, 866·0; in Great Britain and Ireland, 99·0; in other British Possessions, 2·6; in the United States, 16·8; in Germany, 5·8; in Scandinavia, Poland and Russia, 3·6; in China, 1·9; in France, 1·1; in Other Countries, 2·5; at Sea, 0·1, and Unknown, 0·7.

In table E the place of birth of the father per 1,000 is: Canada, 639·4; Great Britain and Ireland, 298·9; Other Countries, 61·7. Place of birth of mother: Canada, 688·2; Great Britain and Ireland, 254·2; Other Countries, 57·6.

Table F gives the population of cities, towns and villages, with ratios, for the years 1881 and 1891; also a statement showing, by provinces, the movement of population. According to this statement the population of Canada was divided as follows:—

1871 Urban population.....	18·8	Rural population.....	81·2
1881 " " 	21·1	" " 	78·9
1891 " " 	28·7	" " 	71·3

In table G the ages of the people are given, year by year, from one to five, and above five by groups of years, with their ratios. The population of Canada is also divided into seven classes of ages in the following order:—

Infants, under 1 year.....	2·49 per cent
Children, 1 to 5 years.....	10·00 "
Boys and Girls, 5 to 15 years.....	23·50 "
Youths and Maidens, 15 to 20 years.....	10·61 "
Young Men and Women, 20 to 30 years.....	17·81 "
Middle age, 30 to 50 years.....	21·05 "
Old Men and Women, over 50 years.....	13·25 "
Not given.....	1·29 "

Divided into two classes of ages, the population shows the following result:—

Under 20 years.....	46·60 per cent
Over 20 years.....	52·11 "

The tables following those already mentioned are sufficiently explained by their respective headings, and require no further explanation.

Table Z gives the population of 1881 and 1891, compared by electoral districts, as constituted by the Readjustment Act, assented to 9th July 1892. All changes made by the above mentioned Act are shown in this table.

Pour chaque 1,000 de la population, 509·1 appartiennent au sexe masculin, et 490·9 au sexe féminin ; 526·8 sont mariés, 39·7 sont en veuvage, et 631·7 enfants et célibataires. La proportion des Canadiens-Français, par 1,000 de la population, s'élève à 290·7.

Dans le tableau C, la proportion des diverses religions est représentée par les chiffres suivants par 1,000 de la population :—Catholiques, 412·2 ; Eglise d'Angleterre, 133·7 ; Presbytériens, 156·2 ; Méthodistes, 175·6 ; Baptistes, 62·9 ; Luthériens, 13·2 ; autres confessions, 27·7 ; non spécifiées, 18·5.

Les lieux de naissance sont donnés dans le tableau D, la proportion par 1,000 de la population étant :—Nés au Canada, 866·0 ; dans le Royaume-Uni, 99·0 ; dans les autres Possessions Britanniques, 2·6 ; aux Etats-Unis, 16·8 ; en Allemagne, 5·8 ; dans la Scandinavie, la Pologne et la Russie, 3·6 ; en Chine, 1·9 ; en France, 1·1 ; dans les autres pays, 2·5 ; en mer, 0·1 ; non donnés, 0·7.

Les lieux de naissance du père et de la mère sont donnés dans le tableau E ; les chiffres suivants représentent le lieu de naissance du père :—Nés au Canada, 639·4 ; dans le Royaume-Uni, 298·9 ; dans les autres pays, 61·7. Lieu de naissance de la mère :—Nées au Canada, 688·2 ; dans le Royaume-Uni, 254·2 ; dans les autres pays, 57·6.

Le tableau F donne la population des villes et des villages, avec proportions, pour les années 1881 et 1891, ainsi qu'un état montrant par provinces le mouvement de la population depuis 1871. D'après cet état, les populations urbaines et rurales se divisaient de la manière suivante :—

1871, population urbaine....	18·8	Population rurale....	81·2
1881 " " 	21·1	" " 	78·9
1891 " " 	28·7	" " 	71·3

Dans le tableau G, les âges sont donnés, année par année, de 1 à 5 ans, et ensuite par groupes d'âges, avec leurs proportions. Dans ce tableau, la population du Canada est divisée en six classes d'âges dans l'ordre suivant :—

Au-dessous de 1 an.....	2·40 pour 100
1 à 5 ans.....	10·00 "
5 à 15 " 	23·50 "
15 à 20 " 	10·61 "
20 à 30 " 	17·81 "
30 à 50 " 	21·05 "
50 et au-dessus.....	13·25 "
Non donnés.....	1·29 "

En divisant la population en deux classes d'âges, on obtient le résultat suivant :—

Au-dessous de 20 ans.....	46·60 pour 100
Au-dessus de 20 ans.....	52·11 "

Les autres tableaux venant à la suite de ceux déjà mentionnés, sont suffisamment expliqués par leurs en-têtes.

Le dernier tableau de ce volume donne la population de 1881 et 1891, comparée par districts électoraux, tels que constitués d'après l'Acte de Rajustement, sanctionné le 9 juillet 1892, ainsi que les changements occasionnés par le dit acte.

* The population in the 1881 column includes the same boundaries as in the 1891 column and, consequently, differs in these cases, where annexations have taken place since 1881, from the population as given by the Census of 1881.

† The Imperial troops stationed in Halifax, and their families (when on the strength of the regiment), are not included in these figures.

* La colonne de 1881 donne la population du même territoire que la colonne de 1891 et conséquemment, dans le cas où il y a eu des annexions de territoire depuis 1881, les chiffres de cette colonne diffèrent de ceux que porte le dénombrement de la même année.

† Les troupes Impériales stationnées à Halifax et les familles appartenant au régiment, ne sont pas comprises dans ces chiffres.
